Professional Summary

Flutter Developer with experience in building cross-platform mobile applications using Flutter and Dart. Passionate about writing clean, maintainable code, implementing scalable solutions, integrating APIs, and deploying applications to Google Play. Committed to following best practices and continuously improving my technical skills to deliver high-quality user experiences.

Education

Bachelor of Computer Science and Artificial Intelligence

2022 - 2026

Damietta University | Information Technology Major | Grade: Very Good

Work Experience / Internships

Cross Platform Mobile App Developer, Digital Egypt Pioneers Initiative (DEPI)

07/2025 – 10/2026

Ministry of Communications and Information Technology

- Completed Flutter training and led the graduation project, building cross-platform apps with Flutter, Firebase, REST APIs, and state management using scalable architecture and best practices.

Mobile App Development, National Telecommunication Institute (NTI)

01/2026 – 02/2026

Ministry of Communications and Information Technology

- Completed 120+ hours of advanced Flutter training focused on Clean Architecture, scalable app development, Flutter, Dart, Firebase, REST APIs, state management, and debugging.

Skills

- Primary Focus:** Mobile Application Development using Flutter & Dart
- Good understanding of:** RESTful APIs Integration, Application Deployment, Clean Architecture concepts, Firebase, Local databases, State Management, Dependency Injection, object-oriented programming, Python, and C/C++
- Familiar with:** Network Concepts, Embedded Systems, Electronics, and Arduino
- Others:** Git/GitHub, Competitive Programming, communication skills, and Software Development.

Selected Projects

MARN – Smart Property Rental Platform (Graduation Project) [GitHub](#) [Google Play](#)

2026

- Developed and maintained a production-ready Flutter application using Clean Architecture, integrating 50+ REST APIs, Stripe payments, deep linking, real-time chat, push notifications, and multilingual support.
- Published the app on Google Play, turning it into a live product for real users.

eCourses – Learning Management System (LMS) [GitHub](#)

2026

- Led the team in developing a real-time LMS using Flutter, Clean Architecture, BLoC/Cubit, Firebase, and GetIt.
- Built role-based dashboards, live course chats, dynamic course management, and real-time progress tracking.

Spec-taco-lar – Food Recipes App [GitHub](#)

2025

- Built a Flutter recipe application with recipe browsing, search, and favorites functionality.
- Created a simple and responsive user interface focused on ease of use and clear recipe presentation.

Awards/Achievements

ECPC (Egyptian Collegiate Programming Contest)

2023

Participated with 3-member team in the ICPC ECPC Qualifications (Day 2) and ranked **106th place**.

Certifications

- Digital Egypt Pioneers Initiative DEPI** - Cross Platform Mobile App Developer Certificate of Achievement **2026**
- National Telecommunication Institute NTI** - Mobile App Development Certificate of Achievement **2026**
- ALX AICE** - AI career essentials **2024**
